Desludging Team Desludged Latrine Without
Maintain PPE **BAD PRACTICE**

Pump/Pipes Kept Near Latrine When they go for Lunch

Septic Tank Cover Open : Children are Playing

Desludging Team take lunch /meal on site without Washing their hands

Why Workers doesn't use PPE even after distributing them ?

- Have you explained them about the health risks ? Have they received any training?
- Is the mask you provided breathable?
- The PPE cloth - is it breathable? Can it be used in summer ?
- What about rainy season ? Raincoat provided to the workers?
- Did you provide Gumboot according to their sizes?
- Did you try same without socks ? Have you provided socks?
- Proper hand gloves , Usable or not for operation / Comfort ?
